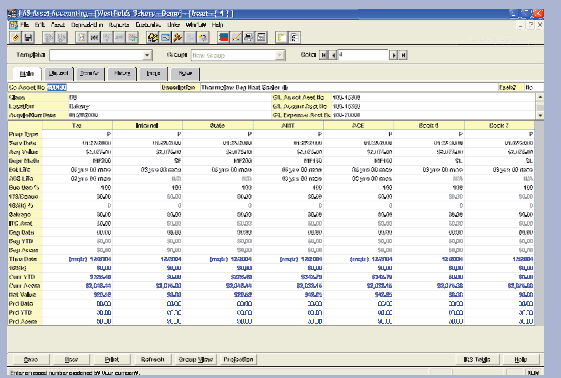
FAS 100 Asset Accounting

FAS 100 Asset Accounting provides advanced fixed asset accounting and reporting features for businesses needing effective decision-making tools in integrated accounting environments. Chosen 3-to-1 over all competing solutions combined, FAS 100 Asset Accounting is the right choice for your company and is the best solution for managing fixed assets.

- Most comprehensive depreciation calculation engine in the industry, containing over 300,000 IRS tax and GAAP rules and more than 50 standard depreciation methods—including methods which can be customized by your company
- Seven books, all visible on one screen—Internal Tax, ACE, AMT, State, and two user-defined custom books
- Password security on user-defined profiles
- Custom FAS Report Writer option provides graphics, drilldown, and batch reporting capabilities
- Extensive online help and electronic documentation
- Create IRS-ready depreciation tax forms with ease, including the 4562

- Instantly run projection depreciation calculations on any number of assets
- Automatically calculates AMT and ACE schedules
- Includes the Sage FAS Depreciation Guide—an electronic version of the definitive resource on fixed asset management
- Store fixed asset images, including photos, warranty forms, etc., to make locating and servicing assets a breeze
- Fully customizable data entry screen including field names, lengths, and prompts—fields can even be turned off completely
- Customizable SmartLists for fast, accurate asset entry
- Powerful Group Manager for instant queries and reusable group definitions

- Group View for working with and viewing multiple assets simultaneously
- Transfer and Disposal features allow you to easily move fixed assets from one business unit to another, and accurately remove assets from the books
- Audit Advisor automatically reviews your fixed assets and red-flags potential compliance issues
- Built-in links to general ledger and other accounting systems offer simple transfer of fixed asset data
- Simplifies Sarbanes-Oxley compliance with custom-tailored security features and an advanced audit trail



FAS 100 Asset Accounting includes automatic calculation of AMT and ACE schedules and over 50 methods of depreciation.
