

FAS 500 Asset Accounting

For maximum performance and scalability in fixed asset management, FAS 500 Asset Accounting provides advanced features and processing speed for larger businesses. FAS 500 Asset Accounting delivers the same dependable depreciation calculations, financial reports, and detailed asset management as FAS 100 Asset Accounting, but leverages the power of Microsoft® SQL Server to offer a scalable client/server architecture. If you need the advanced functionality of a SQL server environment, or are managing increasing numbers of fixed assets, FAS 500 Asset Accounting is your solution.

With extended features and an advanced database platform, FAS 500 Asset Accounting is the right choice for those managing large numbers of fixed assets.

Gain greater speed, flexibility, and scalability.

- Alternative accounting periods including 13 period, 52/53 week, 4/4/5, 4/5/4, or 5/4/4 accounting
- Seven books, all visible on one screen—Internal, Tax, ACE, AMT, State, and two user-defined custom books
- Powerful integration with all major accounting systems
- Faster processing times with Windows Server™ and Microsoft® SQL infrastructures
- Scalability with client/server architecture and support for multiple databases
- Seamless integration with FAS 500 Asset Inventory
- Includes FAS Report Writer for custom reports with graphical, drilldown, and batch reporting capabilities
- Over 300,000 IRS tax and GAAP rules and more than 50 standard depreciation methods

An advanced set of tools for those with more robust fixed asset accounting needs.

- Fully customizable data entry screen including field names, lengths, pictures, and prompts—fields can even be turned off completely
- Customizable SmartLists for fast, accurate asset entry
- Powerful Group Manager for instant queries and reusable group definitions
- Group View for working with and viewing multiple assets simultaneously
- Tab Design lets you instantly switch between Transfer, Disposal, and other functions
